

AMENDMENT TO THE SPECIFICATION

Please replace the paragraph appearing on page 17,
lines 28-33 with the following amended paragraph:

- the insertion of customised annotations in data pages consulted on a terminal; (it will particularly be possible to use the method as described in the patent application entitled "data consultation method and system" registered on the same day as the present application by the same applicant. The text of said application ~~is~~ is inserted here for reference purposes.)
